

## TEACHING RESOURCES FOR FAMILIES

Manuel Pellegrini says: “In my head does not enter the win for winning, at any price”

### Ekkono questions:

What can “win at any price” mean?

What negative things can we do to win?

### The value of don't win at any price

For Ekkono "winning at any price" isn't possible.

Performing bad actions of a player or a team to achieve a victory isn't a way to win, it isn't ethical.
