

## TEACHING RESOURCES FOR FAMILIES

Johann Cruyff says: “Soccer is a game that is played with the brain. You must be in the right place, at the right time”

### Ekkono questions:

What does it mean to play with the brain?

Do you think there are players who are more physical, than cerebral?

### The value of: play with the brain

Ekkono shares with Cruyff that in football what differentiates a good player from an exceptional player is the intelligence they show on the field of play.

Problem solving, multitasking ability, planning and the ability to deal with unexpected situations are some of these functions.
